

**CONSULTATION PLAN**

**PROPOSED NATIONWIDE PROGRAMMATIC AGREEMENT  
FOR THE  
STATE HOME CONSTRUCTION GRANT PROGRAM  
OF THE  
UNITED STATES DEPARTMENT OF VETERANS AFFAIRS**

**Historic Preservation Office  
Office of Construction & Facilities Management  
U.S. Department of Veterans Affairs  
August 21, 2024**

## Executive Summary

Figure 1 - State Veterans Home in Kosciusko, Mississippi. Photo courtesy of NASVH.

The [State Home Construction Grant Program](#) (SHCGP) is a partnership between the U.S. Department of Veterans Affairs (VA) and state applicants to construct, renovate, or repair state-owned and operated nursing homes, domiciliaries, and/or adult day health care facilities (generally referred to as “State Veterans Homes”). State Veterans Homes are not federal properties and are not owned by VA; state agencies are responsible for the day-to-day operations and maintenance of these facilities.

During the COVID-19 pandemic, Congress authorized additional funds to the SHCGP through the [American Rescue Plan Act of 2021](#) and the [Coronavirus Aid, Relief, and Economic Security Act](#). To support state applicants, VA undertook expedited Section 106 application reviews of proposals specifically designed to mitigate the risk of COVID-19, resulting in a disruption of consulting party workloads and review. Given the number of emergency review requests, the ACHP recommended VA develop procedures for taking historic properties into account during operations that respond to a disaster or emergency per 36 CFR § 800.12.

In consideration of this need, VA also has identified benefits of a [Program Alternative](#). These include delineation of roles and responsibilities for the agency and applicants when addressing natural and/or man-made disasters, as such procedures are not the same as processes for long-term situations such as a pandemic, and a reduction in the number of reviews concerning buildings constructed within the last forty (40) years.

VA has proposed to develop a nationwide [Programmatic Agreement](#) (nPA) to establish processes when VA is in the role of a grantor of federal funds for the SHCGP.

## State Home Construction Grant Program

Figure 2 - State Veterans Home in Post Falls, Idaho. Photo courtesy of NASVH.

The SHCGP is a partnership between VA and state and Tribal veterans affairs agencies (applicants) to construct, renovate, or upgrade state-owned and operated nursing homes, domiciliaries, and/or adult day health care facilities (State Veterans Homes [SVHs]). VA does not operate these facilities but grants funds toward necessary improvements. At present, there are 170 active SVHs nationwide. None have been built on Tribal lands at this time, but the [Isakson and Roe Veterans Health Care and Benefits Improvement Act of 2020](#) amended the statutory authority of the SHCGP to include Indian Tribes in the definition of “state” and “state home.” VA received the first application for a project on Tribal land in 2024.

For a SHCGP grant, VA may reimburse applicants up to 65% of the cost of a project, pursuant to [38 CFR § 59.80\(a\)](#). Common projects include:

- Renovation of existing facilities (70 of the 146 applications or 48% between 2018 and 2022). Renovations typically include roof replacements, HVAC system improvements, patient room upgrades, nurse call system installations, and kitchen redesigns.
- Security system upgrades (16 of the 146 applications or 11% between 2018 and 2022). These security upgrades often include replacement of cameras, updated locks, and wander guards to prevent patients with a contagious disease or suffering affected mental capacity from leaving a designated area.
- Construction of new facilities or addition of a building to an existing facility (approximately 3-4 per year). New construction can occur on state-owned land, or on recently acquired properties that may be vacant or previously developed or disturbed. State home buildings are typically between one and three stories tall and feature private and semi-private bedrooms organized into clusters of houses with common areas shared by approximately 15-20 Veterans. Public spaces such as a library, chapel, sports bar, and beauty/barber shop are included to encourage social interaction outside the house or neighborhood setting.

VA recognizes the sovereign status of Indian Tribes and the unique political relationship between Tribal Governments and the federal government. VA further recognizes the importance of consultation and communication with Tribal Governments as described in [Executive Order \(EO\) 13175](#) and [VA Directive 8603](#) and complies with these requirements for the SHCGP nationwide.

Between 2018 and 2022, the VA Historic Preservation Office (HPO) reviewed 146 applications for SVH funding to determine if the applicants had met the requirements of 54 U.S.C. § 306108 and the implementing regulations found in 36 CFR Part 800 (collectively “Section 106”). Of these 146 applications, through consultation with SHPOs and federally recognized Indian Tribes, 144 applications resulted in “no historic properties affected” or “no adverse effect” determinations under Section 106. This is largely because the majority of SVHs were constructed after 1990 (111 SVHs of the 170 nationwide). For the other two consultations – which addressed large redevelopment projects at facilities in Quincy, IL, and Yountville, CA, – VA entered into memoranda of agreement to resolve adverse effects.

## Intent and Goals of a Nationwide Programmatic Agreement

Figure 3 - State Veterans Home in Rocky Hill, Connecticut. Photo courtesy of NASVH.

During the COVID-19 pandemic, Congress provided VA with emergency funds to help SVHs install infection-control measures, upgrade safety systems, and improve infrastructure, resulting in dozens of emergency consultation efforts. These expedited consultations strained the resources and staff time of State Historic Preservation Officers (SHPOs), Tribal Historic Preservation Officers (THPOs), Tribes, Native Hawaiian Organization (NHOs), and Certified Local Governments (CLGs). Review of VA's procedures to meet the needs of health care during the pandemic identified the benefits of a nationwide programmatic agreement (nPA) to follow during a healthcare crisis, especially when VA serves as a grantor of federal funds to non-federal applicants. To address this challenge, VA is proposing to:

- Clarify the definition of "emergency situation" (36 CFR 800.12) to include site-specific emergency needs, such as recovery from a flood event, and long-term pandemic responses,
- Lengthen the availability of "emergency situation" procedures from thirty (30) days following declaration to ninety (90) days,
- Expand the review period for demolitions and construction to thirty (30) days, even if responding to an emergency, and
- Retain the seven (7) day review period for rehabilitation and/or renovation projects.

It is critical to establish clarity in roles and responsibilities for the agency and applicants when addressing natural and/or man-made disasters, as such procedures are not the same as processes for long-term health-related situations.

To further facilitate consultation and simplify emergency responses, VA is proposing to develop a list of programmatic exemptions for inclusion in the nPA.

VA has identified the following benefits of a SHCGP nPA for the agency, reviewers, and applicants:

- Clear procedures to follow in a health care emergency.
- Clarification of agency and applicant roles and responsibilities in the event of a natural or man-made disaster.
- Consideration of effects to historic properties earlier in the project design process to allow for incorporation of avoidance, minimization, and/or mitigation in project scope, timeline, and budget,
- Reduction in number of expedited consultation requests; and

- Procedural roadmap for applicants who are striving to comply with multiple state and federal laws, as well as meet deadlines.

In the SHCGP nPA, VA is proposing:

- Expansion of time frame for responding to emergencies, especially as VA is limited to provision of grant funds.
- Programmatic exemptions for medically necessary materials replacements and safety improvements in active State Veterans Homes; and
- Guidance from preservation partners about the application of the [Secretary of the Interior's Standards for Rehabilitation](#) in medical facilities so applicants can design projects in accordance with best practices.

VA is not seeking exemptions or releases related to the construction of new State Veterans Homes or significant additions to existing facilities. Most SHCGP projects are limited to interior improvements, such as safety systems and materials replacements. These projects have minimal, if any, potential to adversely affect historic properties. Of the 170 State Veterans Homes in the United States, more than half were constructed after 1990 and fewer than 15 are determined eligible for or listed on the National Register of Historic Places, further reducing the potential for adverse effects.

## Proposed Consultation Process

Figure 4 - Veterans Village State Veterans Home in Florence, South Carolina. Photo courtesy of NASVH.

VA expects to initiate consultation in August 2024 on the proposed nPA for the SHCGP. VA intends to release a robust outline for the nPA with the documentation available to consulting parties.

To begin developing the proposed program alternative, VA has developed the following consultation plan, utilizing a webpage, webinar-based meetings, and the ACHP Business Meeting to interact with interested parties and disseminate information.

### Webpage

A webpage will serve as the primary location of all information associated with the proposed program alternative. This webpage will be hosted by the VA HPO and will contain up-to-date information about the consultation schedule, consulting party comments, proposed program alternative updates, and VA contact information. The website address is <https://www.cfm.va.gov/historic/ProposedProgramAlternatives.asp>.

### Consultation with Tribal and Native Hawaiian Leaders

In accordance with 36 CFR § 800.14(f), VA shall conduct multiple rounds government-to-government consultation with federally recognized Indian Tribes and multiple rounds of consultation with NHOs. VA will use procedures outlined in the Executive Order 13175 the "[Presidential Memorandum on Uniform Standards for Tribal Consultation](#)," the "Presidential Memorandum on Uniform Standards for Tribal Consultation," and [VA Handbook 8603](#) to guide government-to-government consultation. Specifically,

- VA acknowledges that consultation is a two-way, Nation-to-Nation exchange, not a singular lecture. VA looks forward to consulting with Tribal and Native Hawaiian leaders interested in the proposed program alternative or on any other VA undertaking.
- The VA Federal Preservation Officer (FPO) and Historic Preservation Office (HPO) will personally review and consider all information provided by Tribal and Native Hawaiian leaders and their Section 106 contacts. VA HPO will participate in all meetings and discussions with Tribal and Native Hawaiian leaders and their Section 106 contacts. The VA Office of Tribal Government

Relations also intends to participate in the first round of meetings and will participate in additional discussions if requested.

- VA HPO staff will meet with any Tribal or Native Hawaiian leader or their Section 106 contacts that request a private or one-on-one meeting or discussion concerning the proposed nPA. VA will provide summary minutes of such discussions to the meeting participants prior to inclusion in the administrative record to ensure all sensitive information is properly kept confidential.
- Information about the proposed consultation effort, including the VA FPO and the designated email address for the VA HPO, are included on the webpage described above to facilitate communication. This includes information about the first round of meetings.
- VA plans to post comments, recommendations, and agency responses on the webpage, unless confidentiality has been requested.

VA will formally initiate consultation per 36 CFR § 800.1, 36 CFR § 800.2(c)(2)(ii), and 36 CFR § 800.14(b)(2)(i). Federally recognized Indian Tribes will be invited into formal government-to-government consultation via letters sent to Tribal government leaders and Section 106 contacts. Consultation will be initiated a minimum of thirty (30) days prior to any meeting request. All information will be sent via email unless hard-copy mailing is requested.

After consultation is initiated, VA shall hold the first consultation meeting. This webinar-based meeting will be conducted through Microsoft Teams. Please note, those without an Microsoft Teams account can still join all meetings, and information about how to do so may be found at the following website address < <https://support.microsoft.com/en-au/office/join-a-meeting-without-a-teams-account-c6efc38f-4e03-4e79-b28f-e65a4c039508#:~:text=You%20don't%20need%20to,once%20you%20join%20the%20meeting.>

On **October 16, 2024, at 2:30 PM ET**, VA shall invite the following to a webinar-based consultation meeting: federally recognized Indian Tribes, NHOs, Alaska Native Corporations, and Tribal and Native Hawaiian Section 106 contacts including the National Association of Tribal Historic Preservation Officers (NATHPO) as a representative of some Tribal Historic Preservation Officers (THPOs). A link to this consultation meeting may be found on the VA website previously listed. This meeting will be held over a 2-hour period of time and may be recorded for internal VA purposes. VA personnel will take notes during this meeting, and the chat feature will be enabled, and any comments recorded for the administrative record. In addition to webinar-based consultation meetings, VA will conduct additional consultation meetings with Tribal Governments and/or NHOs on a case-by-case basis as requested.

After this first consultation meeting, all invited parties will have thirty (30) days to submit comments for VA's consideration. Please note, Tribal and Native Hawaiian comments will not be shared without express permission to the extent possible. VA will upload these comments, when allowable, and the agency's response to each on the program alternative webpage, as well as share with Tribal and Native Hawaiian Leaders and their Section 106 contacts and any other interested party via email.

After this time, VA will schedule a second consultation meeting to address feedback received and, potentially, to discuss a draft of the proposed program alternative. During this meeting, VA will open the discussion for comments, suggestions, and recommendations on both the intent and the text of the proposed nPA. Following the meeting, VA will allow Tribal and Native Hawaiian leaders an opportunity to comment via letter (preferably email). The length of the comment period will be based on feedback, but preliminary plans call for a thirty (30)-day window. VA intends to contact any Tribal or Native Hawaiian participant that requests a one-on-one or otherwise confidential meeting. Once all comments have been reviewed and considered, VA will provide Tribal and Native Hawaiian Leaders a draft document with explanation of how comments are being acted upon.

VA will inform Tribal and Native Hawaiian Leaders of VA's final action in writing, including copies of the final program alternative, summary of consultation, and an explanation of how comments were or were not accounted for. Again, VA will meet with any Tribal or Native Hawaiian leader that requests a confidential or otherwise singular meeting or discussion. All comments, responses, recommendations, and draft documents will be shared with associated Tribal and Native Hawaiian Section 106 contacts, as well as be available on the program alternative webpage, except those noted as confidential or otherwise sensitive.

### Consultation with Consulting Parties

VA shall consult in accordance with 36 CFR 800.14(b)(2)(ii). VA shall conduct multiple rounds of webinar-based consultation meetings with consulting parties. All meetings will be held via Microsoft Teams. Please note, those without an Microsoft Teams account can still join all meetings, and information about how to do so may be found at the following website address <

VA reviewed its past consultation efforts under the SHCGP to determine the list of consulting parties to invite to consultation. As this is a nationwide initiative, VA intends to invite the National Conference of State Historic Preservation Officers (NCSHPO) and individual State Historic Preservation Officers (SHPOs); the National Trust on Historic Preservation (NTHP); the Advisory Council on Historic Preservation (ACHP); accredited Veterans Service Organizations (VSOs); the National Association of State Veterans Homes (NASVH); Certified Local Governments; and all state departments of Veterans Affairs.

On **October 15, 2024, at 2:30 PM ET**, VA will hold the first consultation meeting for NCSHPO and SHPOs. A link to this consultation meeting may be found on the VA website previously listed. In addition to webinar-based consultation meetings, any interested party may schedule one-on-one meetings or phone calls with VA Historic Preservation Office staff at any point during consultation by emailing [historicpreservation@va.gov](mailto:historicpreservation@va.gov).

On **October 21, 2024, at 2:30 PM ET**, VA will hold the first consultation meeting for any interested party, including NASVH, NTHP, VSOs, and CLGS, to attend. A link to this consultation meeting may be found on the VA website previously listed. In addition to webinar-based consultation meetings, any interested party may schedule one-on-one meetings or phone calls with VA Historic Preservation Office staff.

After the first round of consulting party meetings, interested parties will have thirty (30) days to submit comments for VA's consideration. VA will upload these comments and the agency's response to each on the program alternative webpage. After this time, VA will schedule a second round of meetings to address feedback received and, potentially, to discuss a draft of the proposed program alternative.

### First Round Consultation Meeting Expectations

VA shall hold the first round of consulting party meetings after formally initiating consultation per 36 CFR § 800.1 and 36 CFR § 800.14(b)(2). The first round of consultation meetings will provide an overview of SHCGP and the goals of the proposed program alternative. There will be opportunities for attendees to ask questions of and provide feedback to the VA Historic Preservation Office staff. VA would specifically like to discuss with all participants:

- Flexibility with the statutory response periods for consultation during emergencies or other urgent situations, especially as VA is limited to provision of grant funds and not managing the facilities; and
- Programmatic exemptions for medically necessary materials replacements and safety improvements in active State Veterans Homes.

#### Consultation Meeting Schedule Overview

VA intends to host three meetings for consultation with interested parties during the first round of consultation:

- October 15, 2024 – NCSHPO, SHPOs
- October 16, 2024 – federally recognized Indian Tribes, NHOs, Alaska Native Corporations, NATHPO
- October 21, 2024 – Any interested parties including NASVH, NTHP, CLGs, VSOs, and/or members of the public

#### Comment Submission

VA will accept written and oral recommendations and comments throughout the consultation process.

- Via email: [HistoricPreservation@va.gov](mailto:HistoricPreservation@va.gov) (preferred for written communications)
- Oral: During any consultation meetings.
- Via USPS: VA Historic Preservation Office (003C2), Office of Construction & Facilities Management, Department of Veterans Affairs, 810 Vermont Avenue, NW, Washington, DC 20420.

Submitted comments will be shared and may be subject to disclosure under the Freedom of Information Act. VA asks that parties and individuals not share confidential, personal, and/or sensitive data.

#### Council Member Updates

VA presented the proposed Program Alternative at the ACHP Regulation and Governance Committee meeting and Business meeting in July 2024. VA has requested time to present an update on consultation efforts at the ACHP Business meeting in November 2024. VA intends to present information at ACHP Regulation and Governance committee meeting and Business meeting as the agenda permits.

VA shall provide summaries of the views, along with copies of any written comments, provided by affected Indian Tribes, NHOs, Alaska Native Corporations, and all other consulting parties to the Council as part of the documentation for the proposed program alternative. Summaries of the views and written comments provided to VA during consultation will be available to Council members on the Council OneDrive.

## Draft SHCGP nPA Outline

### Recitals (Whereas Clauses)

- Authorities
- Consultation / Outreach

### Stipulations

- Applicability
  - Limited to SHGCP
  - Use of this agreement is not a guarantee of VA funds
  - States and Tribes do not have to use VA funds to build SVHs
  - Would not apply when National Historic Landmarks are within the Area of Potential Effects (APE)
- Administrative
  - Anti-Deficiency Act
  - Communications
  - Commitment to recognize tribal and indigenous knowledge
  - Definitions (if any)
- Roles & Responsibilities
  - VA
    - Review by staff that meet the Secretary of the Interior's *Professional Qualification Standards*
  - Applicants
- Exemptions from further consultation due to the lack of potential to affect historic properties
  - Criteria:
    - No ground disturbance
    - Building is forty (40) years of age or less (i.e., constructed after 1984) or has been determined not historic through consultation with respective SHPO
      - Undertaking is limited to the interior of the building and/or
      - Undertaking involves exterior modifications but there are no historic properties within the APE
- Ongoing Pandemic and/or Emergency/Disaster Recovery Procedures
  - Immediate rescue and salvage operations conducted to preserve life or property are exempt from the provisions of section 106... (36 CFR § 800.12(d))
  - Timelines
    - Exemptions:
      - No change
    - Ongoing pandemic:
      - Retention of seven (7) day review for rehabilitation and renovation undertakings
      - Use of 30-day review for proposed demolitions, facility replacements, and construction of new facilities
    - Emergency/Disaster Recovery:
      - Clarification of the definition of "emergency situation" to include site-specific emergencies without formal declaration such as kitchen fires, roof leaks, etc.
      - Expansion of the 30 day schedule to 90 days
- Annual Reporting

- Dispute Resolution
- Duration / Amendment / Termination

#### Appendices

- List of SVHs
  - Name, address, date of construction, NRHP Status
- Activities excluded from further review

## Anticipated Questions

Figure 5 - State Veterans Home in Buffalo, Wyoming. Photo courtesy of NASVH.

There are too many Program Alternatives right now. Why is this needed now?

*The proposed nPA has been in development for over a year. It was proposed in response to advice provided by the ACHP during the pandemic, as well as to address issues that have arisen during the Section 106 process that cause inefficient reviews and/or limit avoidance and minimization options.*

*VA is aware of the large number of Program Alternatives currently under review and is open to working with consulting parties to reduce the review burden, when feasible.*

Why does VA need a Program Alternative? Why can't compliance be handled in another way?

*Having emergency procedures in place is consistent with the President's [National COVID-19 Preparedness Plan](#); the procedures would be helpful in responding to other types of emergencies and disasters as well. Specific Section 106 needs include:*

- *Flexible timelines for responding to emergencies and urgent situations when VA is the grantor of funds, rather than the owner/operator of the facility;*
- *Programmatic allowances for materials and safety equipment replacements in active medical facilities.*

Aren't some SVHs new buildings within existing historic districts?

*Yes, some SVHs are non-contributing resources within existing historic districts. In other cases, the medical facilities of a SVH are in a newer building but the administration functions are housed in an older, sometimes historic, building. These situations have been accounted for in the proposed review process.*

*Please contact the respective SHPO for information about the historic status of a specific property.*

What are VA's Section 110 [of the NHPA] responsibilities toward SVHs?

*VA does not own nor operate SVHs and therefore Section 110 does not apply. States report the historic status of their facilities as needed for Section 106 review.*

How will VA handle archaeological compliance?

*VA proposes to evaluate the potential for ground disturbance of individual undertakings in conjunction with state and tribal standards, as applicable.*

What is the difference between 36 CFR § 800.12 and what VA is proposing?

*36 CFR §800.12 limits the definition of an emergency situation to “a disaster or emergency declared by the President, a tribal governor, or the Governor of a State or which respond to other immediate threat to life or property.” In 36 CFR 800.12(d), use of these procedures is limited to a period of 30 days following the end of the formal declaration.*

*Medical care facilities are subject to the disasters and emergencies envisioned when this law was passed – flooding due to hurricane, wildfires, tornadoes – but are also subject to global pandemics and epidemics. VA is seeking programmatic allowances from consulting parties to respond according to the needs of the situation. VA also is seeking to avoid burdening reviewing agencies when dealing with their own challenges, such as occurred during the COVID-19 pandemic.*

Will VA have a different process for undertakings on Tribal lands?

*VA requests input from Tribes on use of this proposed nPA on Tribal lands and the accessibility of the grant development process per the [Executive Order on Reforming Federal Funding and Support for Tribal Nations to Better Embrace Our Trust Responsibilities and Promote the Next Era of Tribal Self-Determination](#).*

## Table of State Veterans Homes

This table is based on available information. While properties can be considered eligible for the NRHP prior to reaching 50 years of age, VA has no record that any State Veterans Home has yet fallen into this category.

VA will maintain and update its internal files either through this consultation effort, ongoing SHCGP consultation efforts, or other means. For questions about a specific SVH consultation effort, please contact VA at [historicpreservation@va.gov](mailto:historicpreservation@va.gov). Please contact the respective SHPO for information about the historic status of a specific SVH.

SVH Name	Location	Year Opened (/ Altered)	Historic Status
Bill Nichols State Veterans Home	Alexander City, Alabama	1989	Not eligible due to date of construction
Col Robert L. Howard State Veterans Home	Pell City, Alabama	2012	Not eligible due to date of construction
Floyd E. "Tut" Fann State Veterans Home	Huntsville, Alabama	1995	Not eligible due to date of construction
William F. Green State Veterans Home	Bay Minette, Alabama	1995	Not eligible due to date of construction
Alaska State Veterans and Pioneers Home	Palmer, Alaska	1971 / 2007	Unevaluated
Arizona State Veterans Home - Phoenix	Phoenix, Arizona	2011	Not eligible due to date of construction
Arizona State Veterans Home - Tucson	Tucson, Arizona	2011	Not eligible due to date of construction
Arizona State Veterans Home - Yuma	Yuma, Arizona	2022	Not eligible due to date of construction
Arkansas Veterans Home at Fayetteville	Fayetteville, Arkansas	2006	Not eligible due to date of construction
Arkansas Veterans Home at North Little Rock	North Little Rock, Arkansas	2015	Not eligible due to date of construction
Veterans Home of California - Barstow	Barstow, California	1996	Not eligible due to date of construction
Veterans Home of California - Chula Vista	Chula Vista, California	2000	Not eligible due to date of construction
Veterans Home of California - Fresno	Fresno, California	2013	Not eligible due to date of construction

Veterans Home of California - Lancaster	Lancaster, California	2009	Not eligible due to date of construction
Veterans Home of California - Redding	Redding, California	2013	Not eligible due to date of construction
Veterans Home of California - Ventura	Ventura, California	2009	Not eligible due to date of construction
Veterans Home of California - West Los Angeles	Los Angeles, California	2010	Not eligible due to date of construction
Veterans Home of California - Yountville	Yountville, California	1884	Determined Eligible
Bruce McCandless Colorado Veterans Community Living Center - Florence	Florence, Colorado	1975	Unevaluated
Colorado Veterans Community Living Center at Homelake	Homelake, Colorado	1889 / 1975	Unevaluated for NRHP Listed in State Register
Colorado Veterans Community Living Center at Rifle	Rifle, Colorado	1987	Not eligible due to date of construction
Spanish Peaks Veterans Community Living Center - Walsenburg	Walsenburg, Colorado	1993	Not eligible due to date of construction
Veterans Community Living Center at Fitzsimons - Aurora	Aurora, Colorado	2002	Not eligible due to date of construction
Connecticut Department of Veteran's Affairs - Rocky Hill	Rocky Hill, Connecticut	1865 / 2008	Unevaluated for NRHP Listed in State Register
Delaware Veterans Home - Milford	Milford, Delaware	2007	Not eligible due to date of construction
